RESOLUTION I

ANNUAL REPORT OF THE DIRECTING COUNCIL
TO THE PARTICIPATING GOVERNMENTS

THE DIRECTING COUNCIL,

HAVING IN MIND that Article 8-E of the Constitution of the Pan American Sanitary Organization provides that "the Council shall submit an annual report to the participating Governments"; and

CONSIDERING that the procedure unanimously approved at the V and VI Meetings, whereby the Final Report of the Meeting and the Report of the Director of the Pan American Sanitary Bureau were transmitted to the Governments as the Annual Report, has in practice proved fully satisfactory to the Governments, and it is desirable to continue to apply this procedure in the future,

RESOLVES:

To transmit to the participating Governments the Final Report of each meeting of the Directing Council, together with the Annual Report of the Director of the Pan American Sanitary Bureau, for the purpose of complying with Article 8-E of the Constitution of the Pan American Sanitary Organization.

(Approved at the First Plenary Session, 9 October 1953)
RESOLUTION II

REIMBURSEMENT OF TRAVEL EXPENSES OF REPRESENTATIVES
TO REGIONAL COMMITTEE MEETINGS

THE DIRECTING COUNCIL,

HAVING STUDIED in detail Resolution WHA6.44 of the
Sixth World Health Assembly, Parts II and III of Resolution
EB11/R/50 of the Eleventh Session of the Executive Board of
the World Health Organization, and the information supplied

To propose to the Seventh World Health Assembly the
reimbursement of travel expenses of representatives attending
Regional Committee meetings.

(Approved at the Second Plenary Session, 9 October 1953)
RESOLUTION III

PLAN OF LONG-RANGE PUBLIC HEALTH PROGRAMS

WHEREAS:

The Executive Committee and the Director of the Pan American Sanitary Bureau have complied with paragraph 4 of Resolution VI on Program and Budget Policy of the Pan American Sanitary Organization, adopted by the Directing Council at its V Meeting;

The Executive Committee, at its 16th Meeting, adopted Resolution V approving the development of a long-range program; and

The Executive Committee has submitted to the Directing Council for approval certain guiding principles for continuous planning, requesting at the same time that the Director be entrusted with the preparation of budgets in harmony with this program,

THE DIRECTING COUNCIL

RESOLVES:

1. To approve the development of a plan of long-range public health programs, based on continuous survey and evaluation of
the needs and the resources of the Member Countries, in con-
formity with Resolution V approved by the Executive Committee
at its 16th Meeting, in order to:

a. Strengthen the fundamental services for the
promotion and preservation of the health of
the people in each country.

b. Provide means for the training of professional
and sub-professional personnel for the health
services of the Member Countries, and develop
local and regional resources to this end.

c. Coordinate and assist in the planning and
operation of individual or regional programs
for the eradication of communicable diseases,
such as urban yellow fever, malaria, smallpox,
syphilis, and yaws, which constitute a potential
threat to the Hemisphere and for which there are
suitable means of eradication.

2. To instruct the Director to prepare these programs,
after due analysis, in harmony with future budgets.

(Approved at the Second Plenary
Session, 9 October 1953)
RESOLUTION IV

REMUNERATION OF THE INTERNATIONAL STAFF MEMBERS
OF THE PAN AMERICAN SANITARY BUREAU

THE DIRECTING COUNCIL,

CE19/8 concerning the remuneration of the international staff
members of the Pan American Sanitary Bureau; and

CONSIDERING the opinion of the Director and the action
taken by the Executive Committee on this matter,

To concur in the expressed opinion of the Executive
Committee, that the existing principles governing the remu-
neration of the staff provide equitable remuneration for the
internationally-recruited staff assigned to the Washington
and Zone Offices.

(Approved at the Second Plenary
Session, 9 October 1953)
RESOLUTION V

BY THE INTERNATIONAL STAFF OF THE PAN AMERICAN

BEARING IN MIND Document CD7/21, presented by the
Director of the Pan American Sanitary Bureau in compliance
with Resolution IX adopted by the Directing Council at its
VI Meeting, which contains a summary of the opinions of 19
Member Governments of the Organization; and

CONSIDERING that measures to enable the international
staff of the Pan American Sanitary Bureau to retain their
positions in their own countries facilitate the recruitment of
competent personnel and therefore assure a more effective per-
formance of the functions of the Pan American Sanitary Bureau,

RESOLVES:

To suggest to the Member Governments of the Organization
that they grant every facility to enable their experts to serve
with the Pan American Sanitary Bureau and retain their positions,
in accordance with existing legislation in the respective country.

CONSIDERING that Resolution V, approved at the 20th Meeting of the Executive Committee, which presents the aforesaid document to the Directing Council, recommends that it be approved;

WHEREAS:

Various international organizations prepare plans for public health programs for the Americas, and the Pan American Sanitary Bureau assists in the execution of many of these programs, at the request of some of those organizations;

The cooperation of the Bureau, which is preeminently technical, with agencies engaged in many different activities, creates certain internal difficulties for it, as was pointed out by the Director of the Pan American Sanitary Bureau in his Annual Report to the VII Meeting of the Directing Council (Washington, October 1953) (Document CD7/3, pages 3 to 7);

The various Member Governments, which contribute to a number of international organizations, find it difficult to keep constantly in touch with the many matters to be considered with all the organizations, and the negotiations relating to any program that must be carried out with their cooperation are prolonged; and

It is considered advantageous for the public health programs for the Americas to be concentrated in the American agency
created especially for that purpose, namely, the Pan American Sanitary Organization, which also acts as a regional organization of the World Health Organization,

THE DIRECTING COUNCIL

RESOLVES:

To instruct the Director of the Pan American Sanitary Bureau to make a study of this matter, in consultation with the Member Governments and the appropriate international organizations, with a view to finding practical solutions to the problem, and to present them to the XIV Pan American Sanitary Conference for reference and study.

(Approved at the Sixth Plenary Session, 14 October 1953)
RESOLUTION XVII

RESOLVES:

1. To express its thanks to the Permanent Subcommittee on Buildings and Installations.

2. To approve the action taken to date by the Permanent Subcommittee.

3. To approve the recommendation of the Subcommittee, which was endorsed by the Executive Committee, to the effect that the construction work for the fourth floor of the building located at 1501 New Hampshire Avenue, not be undertaken at this time.

4. To leave the balance of money available from the approved allotment of $135,130, which is estimated to be approximately $17,000, for the maintenance and repair of the Headquarters buildings.

(Approved at the Sixth Plenary Session, 14 October 1953)
RESOLUTION XVIII

REGULATIONS ON THE PROMOTION OF PERSONNEL FROM WITHIN
THE PAN AMERICAN SANITARY BUREAU

THE DIRECTING COUNCIL,

HAVING REVIEWED Document CE19/9, on draft regulations on the promotion of personnel from within the Pan American Sanitary Bureau; and

TAKING INTO ACCOUNT the decision of the 19th Meeting of the Executive Committee on this matter,

RESOLVES:

To concur in the decision of the Executive Committee that the preparation of regulations on promotion of personnel from within the Pan American Sanitary Bureau is not necessary, in view of the existing provisions of the Staff Rules, which accomplish this purpose.

(Approved at the Sixth Plenary Session, 14 October 1953)
RESOLUTION XIX

REVISION OF THE CONSTITUTION OF THE PAN AMERICAN SANITARY ORGANIZATION

THE DIRECTING COUNCIL,

HAVING STUDIED the Report of the Permanent Committee of the Executive Committee on Revision of the Constitution of the Pan American Sanitary Organization, and having heard the opinions expressed in plenary session by the Representatives of the various Member Countries; and

TAKING INTO ACCOUNT that this is a problem of fundamental importance, and considering that the XIV Pan American Sanitary Conference will meet next year,

RESOLVES:

1. To take note of the status of the work done by the Permanent Committee of the Executive Committee on Revision of the Constitution of the Pan American Sanitary Organization.

2. To transmit to the Member Governments the Report of the Permanent Committee (Document CPRC/32 and Annexes I and II) and the opinions received up to the present time.
3. To recommend that the Director of the Pan American Sanitary Bureau urge the Member Governments that have not already done so, to present, at the earliest possible date, their comments on the revision of the Constitution.

4. To transmit the Final Report of the Permanent Committee on Revision of the Constitution to the XIV Pan American Sanitary Conference for study and decision.

(Approved at the Seventh Plenary Session, 15 October 1953)
RESOLUTION XX

ACQUISITION OF INSECTICIDES FOR PUBLIC HEALTH PROGRAMS

THE DIRECTING COUNCIL,

CONSIDERING:

The communication of the Director General of the National Health Service of Chile concerning the difficulties that sometimes arise in the acquisition of insecticides, because of the necessity of making arrangements for exchange priorities, preferential exchange rates, and exemption from import duties, or because of export restrictions in the producer countries;

Resolution WHA4.30 approved by the IV World Health Assembly, and Resolution XXXVI, adopted at the V Meeting of the Directing Council of the Pan American Sanitary Organization, as well as the decisions adopted at the III and IV Meetings of the Control Committee for the Sanitary Agreement between Bolivia, Chile, and Peru, which refer to various aspects of this subject;

The need to continue promoting the use of insecticides on an increasingly wide scale, because of their proven efficacy
in the prevention of numerous diseases that seriously affect certain countries of the Americas, with obvious repercussions on economic and social conditions; and

The export controls sometimes established by the producer countries for these substances,

RESOLVES:

1. To recommend to the Member Countries that they inform the Pan American Sanitary Bureau, before December of each year, of the insecticide quotas they will require for the execution of their campaigns in the following year.

2. To request the Director of the Pan American Sanitary Bureau to continue to negotiate with the Governments of the countries producing insecticides, with a view to securing the facilities necessary for the exportation of insecticides without restriction.

3. To recommend to the Member Countries of the Pan American Sanitary Organization that they grant exchange priorities, preferential exchange rates, and exemption from import duties for insecticides, on a permanent basis, as a means of effectively contributing to the improvement of the economic and social conditions of their peoples.
4. To thank once more, on behalf of the Pan American Sanitary Organization, the Governments of all countries producing insecticides for their cooperation in this matter.

(Approved at the Seventh Plenary Session, 15 October 1953)
RESOLUTION XXI

RIGHTS AND OBLIGATIONS OF ASSOCIATE MEMBERS OF THE
WORLD HEALTH ORGANIZATION

WHEREAS:

The Director-General of the World Health Organization has brought to the attention of the Directing Council, Regional Committee of the World Health Organization, Resolution WHA6.38 adopted by the Sixth World Health Assembly, inviting it to comment on the advisability of changes in the rights and obligations of Associate Members in Regional Committees;

At present there are no Associate Members in the Region of the Americas;

The Pan American Sanitary Organization now has the revision of its Constitution under study; and

It is not advisable to change the present situation until the definitive text of the aforesaid revision is approved,

THE DIRECTING COUNCIL

RESOLVES:

To inform the Director-General of the World Health Organization, in reply to the inquiry received, that it is the wish
of the Directing Council that no measures be taken to change
the present situation with regard to the Regional Committee
of the Americas.

(Approved at the Eighth Plenary
Session, 15 October 1953)
RESOLUTION XXII

AIR TRANSPORTATION AND SHIPPING PRIORITIES FOR MATERIAL USED IN THE EXECUTION OF PUBLIC HEALTH PROGRAMS

THE DIRECTING COUNCIL,

CONSIDERING:

The communication of the Director General of the National Health Service of Chile concerning the difficulties that arise with relative frequency in connection with air transportation and shipping priorities for materials and equipment to be used in the execution of public health programs;

The decisions and resolutions adopted on this subject by the III and IV Meetings of the Control Committee for the Sanitary Agreement between Bolivia, Chile, and Peru; and

The vital importance of rapid transportation in certain instances, such as epidemics, catastrophes, and emergency situations,
RESOLVES:

1. To recommend that the Director of the Pan American Sanitary Bureau request the cooperation of the International Civil Aviation Organization and the International Air Transport Association to the end that, in justified cases, they grant shipping priorities for materials and equipment to be used in the execution of public health programs or campaigns.

2. To request the Director of the Pan American Sanitary Bureau to undertake negotiations with the airlines, with a view to obtaining a special rate for the transportation of such material and equipment intended for official use.

(Approved at the Eighth Plenary Session, 15 October 1953)
RESOLUTION XXIII

TECHNICAL DISCUSSIONS AT THE XIV PAN AMERICAN SANITARY CONFERENCE

WHEREAS:

The Constitution of the Pan American Sanitary Organization provides, among the functions of the Conference, that it shall serve as a forum for the exchange of information and ideas relating to the prevention of disease and the preservation of health; and

A detailed, methodical, and exclusively technical discussion of the reports submitted to the Pan American Sanitary Conference could prove extremely helpful in formulating national and international health programs in the Americas,

THE DIRECTING COUNCIL

RESOLVES:

1. To reiterate to the Governments that it is desirable to have the four-year reports which they are to present to the XIV Pan American Sanitary Conference reach the Pan American Sanitary Bureau by 1 April 1954.
2. To authorize the Executive Committee to study the four-year reports of the Governments, establish the procedure to be followed for the seminar-type discussion of the reports, and set the time limit for discussion and the methods to be followed.

(Approved at the Eighth Plenary Session, 15 October 1953)

(Approved at the Eighth Plenary Session, 15 October 1953)
RESOLUTION XXV

PLACE AND DATE OF THE XIV PAN AMERICAN SANITARY CONFERENCE

THE DIRECTING COUNCIL,

TAKING INTO ACCOUNT Article 7 of the Constitution of the Pan American Sanitary Organization and Resolution XXIII of the XIII Pan American Sanitary Conference; and

CONSIDERING that the Government of the Republic of Chile has expressed, through its Representative on the Directing Council, the wish that the XIV Pan American Sanitary Conference be held in Santiago, Chile,

RESOLVES:

1. To select Santiago, Chile, as the site of the XIV Pan American Sanitary Conference.

2. To request the Government of Chile and the Director of the Pan American Sanitary Bureau to set, by mutual agreement, the exact date in 1954 on which the Conference shall meet.

3. To express to the Government of the Republic of Chile its appreciation of this generous invitation.

(Approved at the Eighth Plenary Session, 15 October 1953)
RESOLUTION XXVI

COMMITTEE ON ECONOMIES AND DECENTRALIZATION

THE DIRECTING COUNCIL,

HAVING RESTUDIED the question of the program of economies and decentralization,

RESOLVES:

1. To request the Director of the Pan American Sanitary Bureau to present to the XIV Pan American Sanitary Conference a report on the steps taken and the results obtained with respect to this matter.

2. To declare terminated the functions of the Committee on Economies and Decentralization, established by the Directing Council at its VI Meeting, and express appreciation for the task it has performed.

(Approved at the Eighth Plenary Session, 15 October 1953)
RESOLUTION XXVII

CAMPAIGN AGAINST SMALLPOX

THE DIRECTING COUNCIL,

HAVING CONSIDERED the inquiry submitted by the Director-General of the World Health Organization on instruction from the Executive Board (Resolution EB12/R/13), requesting suggestions and data from the Regional Committee to serve as the basis of a study of the measures that should be taken to carry out a world-wide campaign against smallpox,

RESOLVES:

To apprise the Director-General of the World Health Organization, for the information of the Executive Board, of the following:

1. That since 1950 the Pan American Sanitary Organization has considered as one of its basic programs the execution of campaigns for the eradication of smallpox throughout the Americas.

2. That the World Health Organization promote inter-governmental agreements, which have given most satisfactory results in the Region of the Americas, with a view to preventing border epidemics.
3. That the quality of the vaccine to be used and the conditions under which it is kept are of fundamental importance, especially wherever the vaccine is exposed to high temperatures, either in storage or in transit.

4. That the World Health Organization provide equipment and/or technical advice, in one or more of the usual ways, to promote the production of glycerinated or dry vaccine, according to the needs of the countries.

5. That it is recognized that each country applies the anti-smallpox campaign methods it deems best suited to its own conditions, but that it is advisable to utilize the administrative experience that experts acquire while carrying out such campaigns. In view of this fact, the World Health Organization should provide advisory service of this kind to the countries desiring to intensify or reorganize their programs.

6. That the World Health Organization recommend to the countries that, as far as possible, the anti-smallpox campaigns be an integral part of permanent, over-all public health programs or the starting point for such programs.

(Approved at the Ninth Plenary Session, 19 October 1953)
RESOLUTION XXVIII

RESOLUTIONS APPROVED

As the result of its deliberations, the Directing Council approved the following resolutions:

RESOLUTION I

ANNUAL REPORT OF THE DIRECTING COUNCIL TO THE PARTICIPATING GOVERNMENTS

THE DIRECTING COUNCIL,

HAVING IN MIND that Article 8-E of the Constitution of the Pan American Sanitary Organization provides that "the Council shall submit an annual report to the participating Governments"; and

CONSIDERING that the procedure unanimously approved at the V and VI Meetings, whereby the Final Report of the Meeting and the Report of the
Director of the Pan American Sanitary Bureau were transmitted to the Governments as the Annual Report, has in practice proved fully satisfactory to the Governments, and it is desirable to continue to apply this procedure in the future,

RESOLVES:

To transmit to the participating Governments the Final Report of each meeting of the Directing Council, together with the Annual Report of the Director of the Pan American Sanitary Bureau, for the purpose of complying with Article 8-E of the Constitution of the Pan American Sanitary Organization.

RESOLUTION II

REIMBURSEMENT OF TRAVEL EXPENSES OF REPRESENTATIVES TO REGIONAL COMMITTEE MEETINGS

THE DIRECTING COUNCIL,

HAVING STUDIED in detail Resolution WHA6.44 of the Sixth World Health Assembly, Parts II and III of Resolution EB11/R/50 of the Eleventh Session of the Executive Board of the World Health Organization, and the information supplied by the Director of the Pan American Sanitary Bureau on the replies of the other Regional Committees and the practice followed by other intergovernmental organizations,

RESOLVES:

To propose to the Seventh World Health Assembly the reimbursement of travel expenses of representatives attending Regional Committee meetings.

RESOLUTION III

PLAN OF LONG-RANGE PUBLIC HEALTH PROGRAMS

WHEREAS:

The Executive Committee and the Director of the Pan American Sanitary Bureau have complied with paragraph 4 of Resolution VI on Program and Budget Policy of the Pan American Sanitary Organization, adopted by the Directing Council at its V Meeting;

The Executive Committee, at its 16th Meeting, adopted Resolution V approving the development of a long-range program; and
The Executive Committee has submitted to the Directing Council for approval certain guiding principles for continuous planning, requesting at the same time that the Director be entrusted with the preparation of budgets in harmony with this program.

THE DIRECTING COUNCIL

RESOLVES:

1. To approve the development of a plan of long-range public health programs, based on continuous survey and evaluation of the needs and the resources of the Member Countries, in conformity with Resolution V approved by the Executive Committee at its 16th Meeting, in order to:

   a. Strengthen the fundamental services for the promotion and preservation of the health of the people in each country.

RESOLUTION XVI

UNIFICATION OF ACTION IN PUBLIC HEALTH PROGRAMS IN THE REGION OF THE AMERICAS

WHEREAS:

Various international organizations prepare plans for public health programs for the Americas, and the Pan American Sanitary Bureau assists in the execution of many of these programs, at the request of some of those organizations;

The cooperation of the Bureau, which is pre-eminently technical, with agencies engaged in many different activities, creates certain internal difficulties for it, as was pointed out by the Director of the Pan American Sanitary Bureau in his Annual Report to the VII Meeting of the Directing Council (Washington, October 1953) (Document CD7/3, pages 3 to 7);

The various Member Governments, which contribute to a number of international organizations, find it difficult to keep constantly in touch with the many matters to be considered with all the organizations, and the negotiations relating to any program that must be carried out with their cooperation are prolonged; and

It is considered advantageous for the public health programs for the Americas to be concentrated in the American agency created especially for that purpose, namely, the Pan American Sanitary Organization, which also acts as a regional organization of the World Health Organization,

THE DIRECTING COUNCIL

RESOLVES:

To instruct the Director of the Pan American Sanitary Bureau to make a study of this matter, in consultation with the Member Governments and the appropriate international organizations, with a view to finding practical solutions to the problem, and to present them to the XIV Pan American Sanitary Conference for reference and study.

2. To approve the action taken to date by the Permanent Subcommittee.

4. To leave the balance of money available from the approved allotment of $135,180, which is estimated to be approximately $17,000, for the maintenance and repair of the Headquarters buildings.

RESOLUTION XX

Acquisition of Insecticides for Public Health Programs

THE DIRECTING COUNCIL,

CONSIDERING:

The communication of the Director General of the National Health Service of Chile concerning the difficulties that sometimes arise in the acquisition of insecticides, because of the necessity of making arrangements for exchange priorities, preferential exchange rates, and exemption from import duties, or because of export restrictions in the producer countries;
Resolution WHA4.30 approved by the Fourth World Health Assembly, and Resolution XXXVI, adopted at the V Meeting of the Directing Council of the Pan American Sanitary Organization, as well as the decisions adopted at the III and IV Meetings of the Control Committee for the Sanitary Agreement between Bolivia, Chile, and Peru, which refer to various aspects of this subject;

The need to continue promoting the use of insecticides on an increasingly wide scale, because of their proven efficacy in the prevention of numerous diseases that seriously affect certain countries of the Americas, with obvious repercussions on economic and social conditions; and

The export controls sometimes established by the producer countries for these substances,

RESOLVES:

1. To recommend to the Member Countries that they inform the Pan American Sanitary Bureau, before December of each year, of the insecticide quotas they will require for the execution of their campaigns in the following year.

THE DIRECTING COUNCIL

RESOLVES:

To inform the Director-General of the World Health Organization, in reply to the inquiry received, that it is the wish of the Directing Council that no measures be taken to change the present situation with regard to the Regional Committee of the Americas.

RESOLUTION XXII

THE DIRECTING COUNCIL,

CONSIDERING:

The communication of the Director General of the National Health Service of Chile concerning the difficulties that arise with relative frequency in connection with air transportation and shipping priorities for materials and equipment to be used in the execution of public health programs;

The decisions and resolutions adopted on this subject by the III and IV Meetings of the Control Committee for the Sanitary Agreement between Bolivia, Chile, and Peru; and

The vital importance of rapid transportation in certain instances, such as epidemics, catastrophes, and emergency situations,

RESOLVES:

1. To recommend that the Director of the Pan American Sanitary Bureau request the cooperation of the International Civil Aviation Organization and the International Air Transport Association to the end that, in justified cases, they grant shipping priorities for materials and equipment to be used in the execution of public health programs or campaigns.

2. To request the Director of the Pan American Sanitary Bureau to undertake negotiations with the airlines, with a view to obtaining a special rate for the transportation of such material and equipment intended for official use.

A detailed, methodical, and exclusively technical discussion of the reports submitted to the Pan American Sanitary Conference could prove extremely helpful in formulating national and international health programs in the Americas,

THE DIRECTING COUNCIL

RESOLVES:

1. To reiterate to the Governments that it is desirable to have the four-year reports which they are to present to the XIV Pan American Sanitary Conference reach the Pan American Sanitary Bureau by 1 April 1954.

2. To authorize the Executive Committee to study the four-year reports of the Governments, establish the procedure to be followed for the seminar-type discussion of the reports, and set the time limit for discussion and the methods to be followed.

RESOLUTION XXV

THE DIRECTING COUNCIL,

TAKING INTO ACCOUNT Article 7 of the Constitution of the Pan American Sanitary Organization and Resolution XXIII of the XIII Pan American Sanitary Conference; and
CONSIDERING that the Government of the Republic of Chile has expressed, through its Representative on the Directing Council, the wish that the XIV Pan American Sanitary Conference be held in Santiago, Chile,

RESOLVES:

To apprise the Director-General of the World Health Organization, for the information of the Executive Board, of the following:

1. That since 1950 the Pan American Sanitary Organization has considered as one of its basic programs the execution of campaigns for the eradication of smallpox throughout the Americas.

2. That the World Health Organization promote intergovernmental agreements, which have given most satisfactory results in the Region of the Americas, with a view to preventing border epidemics.

3. That the quality of the vaccine to be used and the conditions under which it is kept are of fundamental importance, especially wherever the vaccine is exposed to high temperatures, either in storage or in transit.

4. That the World Health Organization provide equipment and/or technical advice, in one or more of the usual ways, to promote the production of glycerinated or dry vaccine, according to the needs of the countries.

5. That it is recognized that each country applies the antismallpox campaign methods it deems best suited to its own conditions, but that it is advisable to utilize the administrative experience that experts acquire while carrying out such campaigns. In view of this fact, the World Health Organization should provide advisory service of this kind to the countries desiring to intensify or reorganize their programs.
